

## Explore Extraordinary!

### Ashbrook 2022 Explore Summer! Programs

Week of July 18 – 22

Click [HERE](#) to register

- **Reading with Dogs for students rising to 3rd through 5th grades (in cooperation with Heartland Humane Shelter and Care)**
- **8:30 am – 12:30 pm**
- **\$175 per week if registered by May 15, \$190 per week after May 15**
  - Ashbrook 3rd grade teacher Lexie Elliott is partnering with a local animal shelter so students will have the opportunity to learn about and read to animals! This fun collaboration will boost animal moods as well as student reading enthusiasm and fluency.
  
- **Informative Writing for students rising to 5th through 6th grades**
- **8:30 am – 12:30 pm**
- **\$175 per week if registered by May 15, \$190 per week after May 15**
  - During this week, students will learn how to write to convey information, as in a research paper, a biographical piece, or an historical analysis. Bring your summer non fiction reading, assigned by your school or chosen by you as pleasure reading. If you don't have any reading, we will supply it! If you have writing assignments to complete for the summer, bring those too! During this week Ashbrook 5th grade teacher Amanda Kelley will focus on writing to answer questions such as:
    - How did this historical figure's life impact American history?
    - What facts is it important to know about when trying to understand this historical figure?
    - In what ways did the historical events surrounding this figure impact his or her life?
  
- **Sizzling Summer Science for students rising to 6th through 9th grades**
- **8:30 am – 12:30 pm**
- **\$175 per week if registered by May 15, \$190 per week after May 15**
  - Join Ashbrook MS Science teacher Dr. Rozeanne Steckler at Ashbrook for a week of sizzling science in the chemistry lab. Here you will get to explore lots of fundamental chemistry by doing it. We will start with an introduction to the lab and lab equipment for those with no prior experience. From there we will explore why some reactions change color, produce a gas, or even get hotter or colder. Do you know why fireworks are all different colors? Here is your chance to experiment and discover for yourself. Did you know chemistry is fundamental to crime investigations? You will after this week of science.
  - This class is also offered the week of July 25 – 29.

- **Informative Writing for students rising to 7th through 9th grades**
- **8:30 am – 12:30 pm**
- **\$175 per week if registered by May 15, \$190 per week after May 15**
  - During this week, students will learn how to write to convey information, as in a research paper, a biographical piece, or an historical analysis. Bring your summer non-fiction reading, assigned by your school or chosen by you as pleasure reading. If you don't have any reading, we will supply it! If you have writing assignments to complete for the summer, bring those too! During this week Ashbrook Head of School Dr. Chris Schoberl will focus on writing to answer questions such as:
    - How did this historical figure's life impact American history?
    - What facts is it important to know about when trying to understand this historical figure?
    - In what ways did the historical events surrounding this figure impact his or her life?
